Art Unit: 1618

Claims 1-64 are presented for examination.

Applicant's request for clarification of restriction requirement has been received and acknowledged.

Claims 53-58 are included in the restriction requirement under Group VI. Such claims are drawn to a method of preparing ocular solution providing at least one antioxidant to a glutathione-containing ophthalmic solution classified in class 514 and 424, subclasses 912 and 78.04.

Applicant's remarks regarding the clarification have been considered. Applicant in the remarks had inquired as to how the product can be used with a materially different process. It is the examiner's position that a product, which is a composition, can be used for different purposes. The intended use for a composition does not limit the composition to such use only. However, a method of using such composition, which is drawn to stabilizing an ocular solution, can be used only for the use as claimed herein.

Any inquiry concerning this communication or earlier communications from the examiner should be directed to Zohreh A. Fay whose telephone number is (571) 272-0573. The examiner can normally be reached on Monday to Friday 9:30-6:00.

If attempts to reach the examiner by telephone are unsuccessful, the examiner's supervisor, Thurman Page can be reached on (571) 272-0602. The fax phone number for the organization where this application or proceeding is assigned is 571-273-8300.
